Keith Davis
1004 Littlestown Pike Suite H
Westminster, MD 21157

Dear Keith Davis,

You can add Brehob Corporation in Indianapolis, Indiana to your list of satisfied users of the UL101.

The unit works very well in our Compressed Air Leak Surveys and actually outperformed one of your competitor's units recently in a side-by-side comparison. We have been using the UL101 for more than 3 years now to find air and gas leaks for our customers. We are extremely happy with its capabilities to find even the smallest leaks.

If I can be of further assistance, or if more information is needed, please feel free to contact me

Sincerely,

Robert Sanders
Air Audit Specialist
Brehob Corporation
